Hiring Manager
Plexxis Software
Brampton, Ontario

Re: Jr. Full Stack Javascript developer

Dear Hiring Manager,

I am writing to express my interest in the software development jr. full stack JavaScript developer position at Plexxis Software as posted on Indeed. After 25 years in education as a physics teacher and a principal, I am eager to make a new career in software development. I have decided to pursue my passion for software development by enrolling in Advance Diploma Program in the field at George Brown College. Given that this is the beginning of a new career, I am prepared to start in a junior position.

Throughout my career in education, I have honed my problem-solving and analytical skills and gained valuable experience in team collaboration and project management. I am confident that these skills, combined with the knowledge and hands-on experience I have gained from my current studies, make me a strong candidate for the software development position at Plexxis Software.

In my previous role, I was responsible for implementing and managing educational programs, and I understand the importance of teamwork, clear communication, and attention to detail. I believe that these skills, along with passion for software development, will make me a valuable asset to your organization.

I am excited about the opportunity to bring my experience and enthusiasm to Plexxis Software and contribute to the success of your team. I would welcome the chance to further discuss my qualifications with you and learn about the opportunities available.

Thank you for considering my application. I am looking forward to hearing from you soon. I can be contacted at 416-555 5555 or at Erdal.Ozkaya@georgebrown.ca.

Regard,

Erdal Ozkaya
